INDEX TO *Proceedings*

AMERICAN CONCRETE INSTITUTE

VOLUME 46—1950

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, V. 21, Sept. 1949 to June 1950 and Part 2, December 1950

Original contributions to the JOURNAL OF THE AMERICAN CONCRETE INSTITUTE—papers, reports and discussions—are indexed in three categories;

1. Title ..... **Construction of long-span concrete arch hangar at Limestone Air Force Base** (46-25) John E. Allen Feb. 1950..... 405

2. Author ..... **Woods, Kenneth B.**—Influence of subgrades and bases on design of rigid pavements (46-21) Jan. 1950..... 329

3. Subject ..... **Bases**—Influence on pavement (46-21) Jan. 1950 329

Numbers in parentheses with each entry constitute the title number of the article. The bold face portion indicates the number of the *Proceedings* volume (in this case V. 46) in which the topic appears. The month and year indicate the JOURNAL issue. Page numbers of both *Proceedings* and JOURNAL are the same.

Letters from Readers items include "LR" in the parentheses: **Continuous beams and frames**—Live load analysis (**LR 46**-30) Oct. 1949..... 144

again the bold face number is the *Proceedings* volume number.

The index to Current Reviews published in this volume begins on p. 897

A

Aaron, Henry—Disc. Influence of subgrades and bases on design of rigid pavements (46-21) Part 2, Dec. 1950 348–1

Acid water—Leaching (**LR 46**-48)
Feb. 1950 473
May 1950 753

Adhesion—Portland cement paint (**46**-1)
Sept. 1949 1

Admixture—Calcite (**LR 46**-46) Jan. 1950 392

Aggregate
–Correcting for free moisture (**LR 45**-19)
Sept. 1949 65
Feb. 1950 480
–Determining compressive strength (**LR 46**-25) Sept. 1949 70
–Handling (**46**-37) Apr. 1950 581
–Inspection (**46**-22) Jan. 1950 349
–Inspection and testing (**46**-15) Dec. 1949 237
–Perlite (**46**-12) Nov. 1949 185
–Storage (**46**-37) Apr. 1950 581

Aggregate moisture test—Air entrainment indicator used (**LR 46**-33) Nov. 1949 221

Air content—Air-entraining concrete (**LR 46**-39) Dec. 1949 300

Air entrainment
